

	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Autumn 1	 <p>Mouse Control: Use Doozla to gain a greater skill using the mouse, clicking, selecting colours and drawing shapes.</p>	 <p>Keyboard Skills: Use Word to practice typing, and learn to change colour, font and size.</p> <p>Use BBC Touch Typing to improve letter recognition on the keyboard.</p>	 <p>Keyboard Skills: Use Swift Publisher to practice typing, reinforcing how to change colour, font and size whilst using Text Boxes.</p> <p>Use BBC Touch Typing to improve letter recognition on the keyboard.</p>	 <p>Coding: Introduction to Scratch and Micro:Bits. Understand the basic concept of coding and that there are different ways of coding.</p>	 <p>Coding: Introduction to Scratch and Micro:Bits. Understand the basic concept of coding and that there are different ways of coding. Experiment with making simple programs.</p>	 <p>Coding: Introduction to Scratch and Micro:Bits. Understand the concept of coding and how we can use different languages. Create functional programs on the Micro:Bit such as a compass.</p>	 <p>Coding: Reinforce Scratch and introduction to Micro:Bits. Understand the concept of coding and how we can use different languages. Use code to create real-world programs, such as a compass or a game of frustration.</p>
Autumn 2	 <p>Mouse Control: Use a variety of online resources such as maths games to practice mouse control. Clicking and dragging correct answers should improve hand-eye co-ordination.</p>	 <p>Digital Literacy: Use Swift Publisher and learn how to type in, delete and resize text boxes. Import images into Swift Publisher and learn how to resize them.</p>	 <p>Digital Literacy: Learn how to delete and resize text boxes. Import images into Swift Publisher and learn how to resize them.</p> <p>Use Art Text to create eye catching titles for our work.</p>	 <p>Coding: Use Scratch to build basic programs and algorithms, whilst bug fixing and improving code throughout. Encourage children to think logically in order to predict the output that the code will create.</p>	 <p>Coding: Use knowledge of code to design and create a basic platform game using Pixel Press Floors. Refine and improve this by using constructive criticism from friends. Learn to fix bugs and to be resilient whilst developing logical thinking practices.</p>	 <p>Coding: Create programs that can control external devices, such as using Bluetooth to control the iPads.</p>	 <p>Coding: Use Javascript to create programs that can control external devices, such as using Bluetooth to control the iPads or writing a script to program the Mac Suite LED strip lights.</p>
	 <p>Keyboard Skills: Use Big Brown Bear keyboard game to help with beginning to locate letters on the keyboard.</p>	 <p>Keyboard Skills: Use BBC Touch Typing to improve letter recognition on the keyboard.</p>	 <p>Keyboard Skills: Use BBC Touch Typing to improve letter recognition on the keyboard.</p>	 <p>Keyboard Skills: Use BBC Touch Typing games to strengthen letter recognition on the keyboard.</p>	 <p>Digital Literacy: Understand how and why we save files in certain places and how important it is to name them correctly.</p>	 <p>Digital Literacy: Understand how and why we save files in certain places and how important it is to name them correctly.</p>	 <p>Digital Literacy: Understand how and why we save files in certain places and how important it is to name them correctly.</p>

	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Spring 1	 <p>Mouse Control: Use a variety of online and offline resources such as maths games and painting programs to practice mouse control. Clicking and dragging correct answers should improve hand-eye co-ordination.</p>  <p>Keyboard Skills: Use Big Brown Bear keyboard game to help with beginning to locate letters on the keyboard.</p>	 <p>Key Programs: Use Swift Publisher to create documents related to topic work in class. Use a combination of pictures, text and colours to make posters.</p>  <p>Keyboard Skills: Use BBC Touch Typing to improve letter recognition on the keyboard.</p>	 <p>Key Programs: Use Swift Publisher to create documents related to topic work in class. Use a combination of pictures, text and colours to make posters. Use Art Text to create titles and labels.</p>  <p>Keyboard Skills: Use BBC Touch Typing to improve letter recognition on the keyboard.</p>	 <p>Key Programs: Become confident at using the Office suite by learning the fundamentals of Word, Excel and Powerpoint. Experiment with text formatting and alignment, images and basic formulas.</p>  <p>E-Safety: Consider dangers that we may face online and how to stay safe. Discuss different ways of getting online besides using a computer and why we need to be careful. e.g. online gaming and messaging apps.</p>	 <p>Key Programs: Increase confidence using the Office suite by learning the fundamentals of Word, Excel and Powerpoint. Experiment with text formatting and alignment, images and formulas to model basic data.</p>  <p>E-Safety: Consider dangers that we may face online and how to stay safe. Discuss different ways of getting online besides using a computer and why we need to be careful. e.g. online gaming and messaging apps.</p>	 <p>Key Programs: Build confidence on computers by using programs such as Photoshop and Illustrator to edit and manipulate images. Work towards making an e-safety comic strip with our own illustrations.</p>  <p>E-Safety: Consider dangers that we may face online and how to stay safe. Discuss different ways of getting online besides using a computer and why we need to be careful. e.g. online gaming and messaging apps.</p>	 <p>Key Programs: Build confidence on computers by using programs such as Photoshop and Illustrator to edit and manipulate images. Discuss different ways of getting online besides using a computer and why we need to be careful. e.g. online gaming and messaging apps.</p>  <p>Keyboard Skills: Use BBC Touch Typing to improve letter recognition on the keyboard.</p>	 <p>Key Programs: Build confidence in different programs by using programs such as Photoshop and Illustrator to edit and manipulate images.</p>  <p>Key Programs: Experiment further with formula in Excel and design graphs and charts to display data. Link with classes science project.</p>	 <p>Key Programs: Build confidence in different programs by using programs such as Photoshop and Illustrator to edit and manipulate images.</p>  <p>Key Programs: Experiment further with formula in Excel and design graphs and charts to display data. Link with classes science project.</p>	 <p>Key Programs: Build confidence on computers by using programs such as Photoshop and Illustrator to edit and manipulate images. Work towards making an e-safety comic strip with our own illustrations.</p>  <p>E-Safety: Continue with comic strip to share e-safety advice with younger children.</p>	 <p>Coding: Use Swift Playgrounds on the iPads to learn Swift code which can then be used to make iOS applications. (Alternate this between half of the class whilst the other half work on their e-safety comic strips.)</p>  <p>E-Safety: Continue with comic strip to share e-safety advice with younger children.</p>

	Reception	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
Summer 1	 <p>Key Programs: Use Safari to play online games and activities such as Education City and Phonics Play. Become confident opening and closing websites in Safari.</p>	 <p>Key Programs: Use Safari to find images and Swift Publisher to create documents related to topic work in class. Use a combination of pictures, text and colours to make posters. Use Art Text to create titles and labels.</p>	 <p>Key Programs: Use Safari to find images and Swift Publisher to create documents related to topic work in class. Use a combination of pictures, text and colours to make posters. Independently use Art Text to create titles and labels.</p>	 <p>Coding: Use Scratch with confidence to create applications and games around a theme. Create graphics such as sprites and backgrounds to personalise work.</p>	 <p>Coding: Use Scratch with confidence to create applications and games around a theme. Create graphics such as sprites and backgrounds to personalise work.</p>	 <p>3D Design: Use 3D design software (SketchUp or AutoCad) to design a 3D object based around the class topic. Refine and improve this design with peer feedback.</p>	 <p>Coding: Use Swift to build some basic quiz-style apps for the iPads using Xcode. Prototype using Scratch. Use buttons, segues and variables to keep track of lives lost during the game.</p>
	 <p>Keyboard Skills: Use BBC Touch Typing to improve letter recognition on the keyboard.</p>	 <p>Keyboard Skills: Use BBC Touch Typing to improve letter recognition on the keyboard.</p>	 <p>Keyboard Skills: Use BBC Touch Typing to improve letter recognition on the keyboard.</p>	 <p>Creative Computing: Use Pixel Press Floors and iPads to design, create, actualise and improve computer games.</p>	 <p>Creative Computing: Use Pixel Press Floors and iPads to design, create, actualise and improve computer games.</p>	 <p>Coding: Continue to develop coding skills using a mixture of Scratch and MicroBits. Ensure logical reasoning and problem solving skills are robust amongst pupils.</p>	 <p>Key Programs: Use Photoshop to create graphics and other visual elements for our app design.</p>
Summer 2	 <p>E-Safety: Consider dangers that we may face online and how to stay safe. Discuss different ways of getting online besides using a computer and why we need to be careful. e.g. online gaming and messaging apps.</p>	 <p>E-Safety: Consider dangers that we may face online and how to stay safe.
