

Over the last 12 months we have seen a very favourable increase in sports participation. Club participation has increased by 21.2% with 128 children attending clubs. Many of these children have attended more than one club so our number of attendees is above the number of children on role in KS2 at 113.9%. we have increased our number of clubs on offer with the introduction of a KS1 multi-skills club, Year 3 & 4 touch rugby, cricket club, rounders' club and also a tennis club for years 4 to 6. The opportunity to improve the extracurricular provision we offer has been afforded by allocation of PE and Sport Premium funding as staff has been upskilled and afforded the time to run these clubs, at a benefit of the children attending. The effort and allocation of funding has offered rewards in competition with a 9.8% increase in representation at interschool level as well as trophies and medals. This year we have increased the number of children who have qualified for the school games as well as winning the England Schools FA County championship which allowed us to represent Cornwall at the South West final event in April.

Although we have had huge success as improving attendance at sporting events and participation in clubs we appreciate most has come at KS2 level. As a school we are aware of the need to improve this across all key stages; working with the school council we plan to survey the children's interest in clubs and strive to meet the needs and aspirations of all children by branching out from mainstream sports. We have also used feedback from parent's questionnaires to inform our choices on offer.

The introduction of a daily 'Wake & Shake' has been a huge success which has been noted by many parents to improve the children's desire to come to school in the mornings and also be active and enjoy physical activity through unfamiliar means. Its impact has also been noted by teachers who have seen a rise in attainment and concentration; children enter the class invigorated and ready to work.

The most important aspect of spending the PE and Sport Premium funding for us is that is sustainable. We feel as a school that we have allocated and used the PE and Sport Premium funding to create an atmosphere and ethos that encourages a love for sport which will live long after the funding is awarded.
