

Friday 25th June 2021

Dear Parents and Guardians,

I wanted to update you on our work regarding the class groupings for Year 1 next year.

We take care to ensure that classes are well-balanced in terms of children's learning needs, styles and levels of confidence as we find that this is the best way to support learning for all. As a team, we held some initial discussions about the potential for some slight changes to the current class groupings for September and we consulted with a small number of parents accordingly.

Following this initial consultation, we have determined that to make changes at this point could be unsettling for pupils, particularly given the challenging year they have overcome. **Therefore, we can confirm that class groups will not be changing ahead of September.**

In Year 1, the children will regularly work alongside their peers from the parallel class and the teachers are busily planning activities which will follow this model.

If you have any questions or would like to talk this through, please don't hesitate to get in touch. Many thanks for your support.

Best wishes,

Chris Chislett
