We again have welcomed the Government's commitment to supporting PE and school sport. We intend to use this funding to achieve self-sustaining improvement in the quality of PE and Sport at Penpol School. We hope to provide a long-lasting impact against our PE vision; which will last long into our children's lives.

At Penpol School we intend to ensure all children leave us with the physical literacy required to be successful in life as well as the skills, knowledge and motivation required to live a healthy and active lifestyle whilst promoting a lifelong love for sports participation.

Although COVID is now far behind us, we are continuing to spend our premium funding to provide enrichment opportunities which will encourage the sustained impact that we desire to have helping us achieve our ultimate goals of creating a happy, healthy and active cohort of pupils. This is something we feel passionately about, ensuring all children have the opportunity to have these opportunities regardless of economic background.

It is expected that as a result of the funding the school will see an improvement against the following 5 key indicators.			1	The engagement of ALL pupils in regular physical activity – kick starting healthy active lifestyles.
			2	The profile of PE and Sport being raised across the school as a tool for whole school improvement.
			3	Increased confidence, knowledge and skills of ALL staff in teaching PE and Sport
			4	Broader experience of a range of sports and activities offered to ALL pupils
			5	Increased participation in competitive sport.
