Penpol School Newsletter

Friday 18th September

Year 1's Blackberry Adventure!

Year 1 has had a wonderful time taking their learning beyond the classroom this week! The children went on a blackberry walk, searching for and collecting ripe, juicy blackberries. Back at school, we used our freshly picked blackberries, along with apples, to make a delicious apple-and-blackberry crumble. At Penpol, we love giving children real experiences to inspire their writing. What a delicious way to bring writing to life!

Wonderful Baby News!

We are delighted to share some very exciting news with our school community! Vicky Burlingham and Kerensa Guy are both expecting babies! We are absolutely thrilled for Vicky, Kerensa and their families and know that everyone at Penpol will join us in sending them huge congratulations and lots of love as they prepare to welcome their new arrivals. Congratulations, Vicky and Kerensa!

Wilfred's Word of the Week

Fatla genes? - How are you?

Year 6 Scientists!

Year 6 have been busy being scientists this week! They carried out an experiment to explore how blood moves through our blood vessels, helping them to understand how our circulatory system works.

A fantastic hands-on way to bring science to life!!

Penpol Value of Resilience!

Elise and Mylo attended a dance competition at Alton Towers at the weekend where they won 3 medals each! We are very proud of them!

Penpol Value of Creativity!

Harlow has been showing Penpol Value of Creativity with her drawings at home. Thank you for sharing them with our community!

A Polite Reminder About Parking

Please remember to park safely and considerately during drop-off and collection times, keeping dropped kerbs, pavements and pedestrian access points clear. This is particularly important for wheelchair users, families with pushchairs and other pedestrians.
Thank you for helping to keep our school community safe and accessible for everyone.

Allergies Meeting

Parents and carers of children with allergies are invited to meet with Chris Chislett on **Friday 25th September at 2:00 pm**. This is an opportunity to share your views and help us continue to improve our provision for children with allergies. We would love for you to join us!

HAPPY WEEKEND

Mrs Best
